comments: I may not be able to help legally but I am more than willing to do a Cable arv. Internet television show on the issues.

I am sorry if you thought we did nothing but sometimes we are limited by time, money, or expertise—or the specific legal means for a remedy. Some of the legal remedy is more for the government (probably Federal) rather than a private attorney.

I try to do what I can to help others and reveal truth and obtain some justice.

I am currently on temporary active military duty but you can call me when I return.

Best wishes for a great summer.

Comments: We did have Jamie on a TV program. I shared his information with authorities (which he did previously)

He has been invited to other events.

I offered him an opportunity to be on TV and interact with others.

I wish him the best.
