Mr. Fitzgerald,

My name is Jaime Hernandez. I hate corruption like you. I do not have a price tag on my head and neither do you. I know you have heard of the book, "Death of the Justice System-by Linda Achor." The book is a true book. I am behind these people, supporting what they are doing. I have enclosed a copy of a Sheriff's Office of Cook County Inspector General Complaint register. I have filed a complaint with their office. I know that they are not going to do anything, which is why I forwarded a copy to you. Mr. Fitzgerald, I am a law abiding, tax paying citizen of this country. I am still feeling the effects of how I was mistreated by these officers. I can not believe the treatment I received from the Cook County Sheriff Department. I was treated as if I were a criminal. The corruption which goes on there is a shame. I wonder what God is thinking about all of this corruption which is going on.

They sent me out to test the waters and I sunk. I witnessed courtroom cover-up and lies first hand. What I saw, reminds me of something from Hollywood, the only thing missing were the cameras. Then again, they have too much to hide- which is probably why they won't allow cameras.

Please do not send me any FBI agents. I have given them plenty of information and they have done nothing with it. They are dirty and the corruption still remains. If you wish to discuss this further, you may reach me at the number below.

Sincerely,

Jaime Hernandez
